

RAPID ACCESS

774 Albany St, Finland Building, 2nd Flr.
(617) 638-5500

Recovery coaches, licensed social workers, and recovery support navigators who all work in collaboration to connect patients with substance use disorders (SUDs) to long term outpatient treatment at Boston Medical Center and in the community.

PROJECT TRUST

721 Massachusetts Ave
(617) 680-1828

Street-level drop-in center, which uses Public Health Outreach Specialists to provide harm reduction supplies, including syringe distribution and naloxone to clients with SUD.

FASTER PATHS

850 Harrison Ave, Yawkey Building, 1 Flr., Room 1N64
(617) 414-4580

SUD urgent care center that rapidly evaluates, motivates, and refers patients with substance use disorders to a comprehensive care network of inpatient and outpatient detoxification, treatment, and aftercare services integrated with mental health and medical care.

PROJECT ASSERT

850 Harrison Ave, Yawkey Building, 1 Flr., Suite 1210
(617) 414-4388

Provides greater access to substance use treatment in the emergency department and includes a variety of social and community healthcare support services.

CATALYST

850 Harrison Ave, Yawkey Building, 6th Flr.
(617) 414-6655

Provides developmentally appropriate care with a multi-disciplinary team of Addiction Medicine Specialists, social workers, nurses, and recovery coaches.

PROJECT RESPECT

850 Harrison Ave, Yawkey Building, 5th Flr.
(617) 414-4165

A high risk obstetrical and addiction recovery medical home that provides a unique service of comprehensive obstetric and substance use disorder treatment for pregnant women and their newborns.

SOFAR CLINIC

850 Harrison Ave, Yawkey Building, 6th Flr.
(617) 414-5988

Provides ongoing support for families to enhance child development as well as ongoing support for recovery, with access to specialty care and social services.

OFFICE-BASED ADDICTION TREATMENT / START

801 Albany St, Crosstown Building, 5th Flr.
(617) 414-4123

11 Melnea Cass Blvd, Family Medicine, 1st Flr.
(617) 414-7490

Integrates addiction treatment into a primary care setting, enabling patients to receive care for substance use disorders similar to the way that other chronic medical conditions are managed. START is a clinic located in Family Medicine focused on treating stimulant use disorders using contingency management, group therapy, and encouraging physical exercise

ADDICTION PSYCHIATRY TREATMENT PROGRAM

850 Harrison Ave, Dowling Building, 9th Flr.
(617) 414-4238

Provides multidisciplinary, outpatient treatment for people with co-occurring mental health disorders and substance use disorders.

ADDICTION CONSULT SERVICE

Adult Inpatient Floors

The Addiction Consult team provides guidance and support for hospitalized patients with substance use disorders and connects patients to addiction treatment after their hospitalization.
