

Making Dog Toys

Stack 3 pieces of different colored felt and tie them together into a knot about 5 inches from one end.

Braid the three strips of felt together.

Stop braiding about 5 inches from the other end of the strips.

Tie the strips together at the end of the braid into a knot.

Trim the ends of the felt so they are all the same length. Cut the ends into lots of strips to make fringe.

Fold the toy in half and tie a big knot in the middle, leaving a loop of rope at the top and the two ends separate at the bottom. You're done!
