

Making No Slip Socks

Please read **ALL** directions before you start, and ask questions if you have them!

Choose a pair of socks. Brainstorm some ideas for a pattern on a separate sheet of paper.

Grab some fabric markers and start designing the top of the sock.
The marker designs need to be done before you use puffy paint on the bottom of the sock!

Use the puffy paint on the bottom of the socks to create fun grip patterns. You can do shapes or lines.

Lay the socks flat so that the puffy paint can dry.
