BOSTON MEDICAL
CENTER

Your door to crisis, mental health, and substance abuse services...

The Fall River Emergency Services Program provides 24-hour response to adults and youth in need of crisis intervention for mental health and substance use concerns.

Experienced psychiatrists, advanced nurse practitioners, registered nurses, master's level clinicians, mental health workers, family partners, and certified peer specialists make up our team.

We deliver services in the community (*e.g., homes, schools*), at the urgent care centers, and, if necessary, at local emergency departments, to address medical or safety concerns.

24-HOUR CALL CENTER

1-800-981-HELP (4357)

Dial our toll-free 24-hour number to initiate services. Call Center clinicians will provide information, referrals, and arrange in-person evaluations.

When you call, you will be asked demographic information as well as detailed questions about the current crisis. Try to remain calm and answer questions fully. This important step can save time and help us offer a successful intervention.

MOBILE CRISIS INTERVENTION

Mobile Crisis Intervention, known as MCI, is the youth-serving component of our Program.

MCI services are available to all youth regardless of insurance up to age 18 and to MassHealth-insured youth up to age 20.

MCI provides short-term crisis intervention and stabilization to youth and family caregivers experiencing behavioral health crisis. This intervention can continue up to 7 days.

URGENT CARE CENTER

The Urgent Care Center (UCC) offers an option when an office-based evaluation is desired. The UCC also provides urgent psychopharmacology by appointment.

Save time waiting in the Emergency Room by visiting one of our Urgent Care Centers. Always contact the Call Center at **1-800-981-4357** prior to visiting our sites.

COMMUNITY CRISIS STABILIZATION

The Community Crisis Stabilization (CCS) program serves adults age 18 and older. The CCS is a staff-secured and safe treatment program that provides short-term crisis intervention over a 3-5 day/overnight stay. The CCS is a successful alternative to inpatient hospitalization.

SUMMARY OF FRESP SERVICES

The Fall River Emergency Services Program provides a comprehensive and highly integrated system of crisis evaluation and treatment services to residents of Fall River, Freetown, Somerset, Swansea, and Westport. We serve all ages and multi-cultural populations.

We Provide:

- Immediate Information 24/7/365
- Peer to Peer Support
- Crisis Intervention
- Psychiatric Evaluation & Treatment
- Referral to Ongoing Treatment
- Referral to Psychopharmacology
- Short-term (3-5 day/overnight stay) at the Community Crisis Stabilization Program
