BMC Username:

BMC Email:

Role:

- Site Coordinator
- Approver

Display Phone #:

* All users will be able to view applicable reports and, unless otherwise indicated, will be granted access to all studies of the approving PI

Note: If you are not the PI, please send completed form to PI with cc to Research systems (RIS@bmc.org) requesting PI approval via email.

Research Operations:

- Financial Analyst [Maintains Study]
- Super User
- Research Information Systems [Maintains study role.]

I attest that I have attended the required ClinCard Training, and I understand that I am required to read a copy of [Research Participant Payment Policy](#), and I agree to comply with the Program Policies as stated below:

- I understand that the ClinCard is only to be used for BMC research participant compensation.
- I understand separate from the program, a detailed study log of actual events and associated payments is required to be maintained within the department in order to meet the required quarterly reconciliation and certification.
- I understand, that at this time, ClinCards is a service for BMC studies only.
- I understand the Clinical Trial Office (CTO) will build all payment schedules in the ClinCard system as part of the study setup, based off of the final approved budget.
- I understand all card loads will post to the Human Subject line item (540709-54523) on the BMC Activity# listed for the study/protocol.
- I understand moving ClinCard transactions via journal entry should be a rare occurrence due to the pre-built payment amounts and multiple reviews/approvals prior to releasing funds to the card, and any request must be fully explained.
- I confirm that if requesting the "Approver" role, I am not subordinate to the individual fulfilling the "Site Coordinator" role, and I am not also fulfilling the "Site Coordinator" role in ClinCard.
- Unless otherwise indicated, user will be granted access to all studies of the approving PI

 Print Name & Title

 Date
