Please check one of the following:

I have reviewed the list of select agent microorganisms and toxins and I do not possess or use any of these agents.

I do possess and/or use one or more of the select agents and have checked the agents I possess below.

I do not currently possess or use any of the select agents but plan to do so in the future. I have indicated those I plan to use below.

- \_\_\_ 2. Nucleic Acids (synthetic or naturally derived, and that are in a vector or host chromosome; can be expressed *in vivo* or *in vitro*; or are in a vector or host chromosome that can be expressed *in vivo* or *in vitro*) that have the potential to encode for the functional form(s) of any of the toxins from the select agents listed above, OR their toxic sub-units.
- \_\_\_ 3. Any of the viruses, bacteria, fungi, and toxins listed above that have been genetically modified.
