

## Deciding if you have a Subcontract, Vendor, or Consultant

	<b>Subcontract</b>	<b>Vendor</b>	<b>Consultant</b>
<b>Involvement</b>	Completes work promised and analyzes results found. Statement of work to be performed or objectives they will assist in accomplishing is required. Usually involved in <b>programmatic</b> decisions.	Performs services only (no analysis or discretionary judgment) such as lab testing, reporting printing, etc. that are part of regular business operations and are available to many different purchasers or customers	May perform work, analyze results, evaluate project accomplishment, or provide advice
<b>F&amp;A (IDC)</b>	F&A costs apply only to the first \$25,000 of the subaward regardless of the time it takes to reach the \$25,000 figure.	F&A costs apply to entire figure and these fees are considered "other direct costs" on the budget	F&A costs apply to the entire figure and are recorded on the consultant line of the budget; you may be asked to specify an estimate of number of days and daily pay; pay cannot exceed normal market expectations
<b>PI/CoPI</b>	Investigator is identified	Person (s) conducting work is not necessarily identified.	Person may or may not be identified; normally it will be one person unless it is a consulting group or entity
<b>Technology Transfer</b>	Potential for patentable or copyrightable technology to be created through project; entity has right to protect technology	No potential for patentable or copyrightable technology to be created through project	Slight potential for patentable or copyrightable material depending on their involvement in the project; may need to see OTD
<b>Publications</b>	Publication of results expected; investigator to author, or be co-author	No publication or involvement in publication anticipated.	Involvement in publication efforts very minimal to none.
<b>Internal Paperwork for routing</b>	Budget, budget justification, SOW, official commitment letter from their organization, copy of rate agreement	None needed unless sponsor requires; if you have a quote though you should provide it to ORS for inclusion in your proposal file	If person (or entity) is identified--internally we ask for an email or letter stating what they have agreed to do and the funds [if any] they expect to receive; it is expected that they will not be using any non-personal assets during their consultant work or that they have legal permission to use any non-personal assets. If no specific person or entity is identified (TBD) then no paperwork is needed.
<b>Cost sharing</b>	May be providing cost sharing or matching funds.	Fixed price...no cost sharing or matching funds involved.	could provide cost sharing but not usually

**If your subcontract, vendor, or consultant is a Federal Agency or works for a Federal Agency please let your PDS know as this may affect the budget.**
