

COVID Questionnaire for L&D Triage:

| Information collection question | Y/N |
|---|-----|
| Have you had a fever? | |
| Have you had the following signs/symptoms? Cough Shortness of breath | |
| Have you had a sore throat?* | |
| Are you a healthcare provider or EMT? | |
| Have you had close contact w confirmed cases who were present in “congregate” settings such as school, church, shelter while symptomatic Here clarify whether it really was prolonged close contact. Being 10 pews away does not count. Snuggling with the choir director does count. Get details if in doubt! | |
| Do you share a household with a confirmed COVID-19 case who is/was symptomatic or do you have other extremely close contact with a confirmed COVID-10 case who is/was symptomatic but NOT in a congregate setting? | |
| Any recent travel from level 3 countries (https://wwwnc.cdc.gov/travel/notices) in past 14 days <u>Current list:</u> China S Korea Europe UK and Ireland Venezuela | |
| Any recent travel in US location w known community transmission <u>Current list:</u> Seattle/King County WA Westchester County, NY Solano County, CA | |

* mild symptom – relevant **only** for healthcare workers, some of the travel categories.
