

Starting Zoom Meeting as Host

Overview

If you are the meeting host and need to start or join a scheduled meeting, there are several ways that you can join the meeting. As the host, you can start the meeting from the Zoom desktop client for Mac, PC, or Linux, the Zoom app for Android or iOS, your web browser, or an H.323 or SIP device.

You can start a meeting by phone as the host using your host key. [Learn more about starting a meeting by dial-in.](#)
